Once the Bitcoin hits your EDGE account, open the expandable menu on the top right corner and select Sell Cryptocurrency:

On the next screen, you'll see two options: "ACH Bank Transfer" and "Gift Cards".

- ACH Bank Transfer lets you convert your Bitcoin into USD and withdraw directly to your bank account.
- Gift Cards let you use Bitcoin to purchase gift cards, reload pre-paid mobile phones and more.

To withdrawal your Bitcoin, you'll need to pick an **ACH Bank Transfer**, and then follow the steps to create a Wire account and link your personal bank account.

For every transaction made using Bank Transfer, there is a small **1% fee**.

It will take about **1 business day** for initial account verification, and each transaction takes from **3-5 business days** for the funds to hit your bank account.
